

**CALL FOR APPLICATIONS
(Academic Year 2025-2026)
MSc Sustainable Engineering and Climate Change**

The call for applications for the Hybrid Postgraduate Program of Studies in Sustainable Engineering and Climate Change (academic year 2025-2026) is now open. Applicants are requested to submit:

1. Personal information and desired specialization area.
2. Copies of acquired degrees/diplomas.
3. Certificate of accreditation by Hellenic NARIC, for degrees from foreign institutions (can be submitted to us after the start of the 2025-2026 academic year if not available before that, with the deadline for submission being the end of the student's enrolment in our program).
4. Official transcript.
5. Copies of English Language Certificates (and of any other foreign language, where applicable)
6. Extended Curriculum Vitae (CV).
7. List of awards, fellowships and publications.
8. Copies of scientific publications, if there are any.
9. Personal statement, describing your academic interest in and understanding of your chosen program, as well as your purpose and objectives in undertaking the specific graduate studies.
10. At least two letters of recommendation from academics.

The applications have to be submitted via the online application system:

<https://e-graduate.tuc.gr>

The deadline for submitting all documents is May 31st, 2025

Courses for the Master's degree will be taught in English. The Master's thesis will be written in English. Modules will be taught both in person and with online participation using e-learning platforms. Course fees for the whole duration (3 semesters): 3000 Euros.
