- Poster sessions: technological, humanistic, economic and environmental dimension of responsible production and consumption (open to EURECA-PRO partners and other universities and institutions)

2. Agenda

The Conference begins with an inaugural ceremony in which the Rector of MUL presents the main challenges that we are facing in the alliance related to the SDG 12. After this introduction we will have a plenary session about the topic of “How can political activities lead to a better fulfillment of SDG 12?”. Afterwards, we will have two blocks with sessions (three sessions in each block [40 min.]) separated for lunch slot time. After the last session, we will have a poster session (max. 90 min) in which selected works related with the SGD 12 will be introduce by their authors in not more of 7 minutes (also open for posters, which weren’t presented before).
