

## Install VPN Client

The appropriate VPN client must be installed to your device to be able to connect to VPN server of Technical University of Crete.

Visit the website:

<https://www.fortinet.com/support/product-downloads#vpn>

Locate “FortiClient VPN” section and click on the operating system of your device.

**FortiClient VPN**

The VPN-only version of FortiClient offers SSL VPN and IPsecVPN, but does not include any support. Download the best VPN software for multiple devices.

**Remote Access**

- ✓ SSL VPN with MFA
- ✓ IPSEC VPN with MFA

Download VPN for Windows

Download VPN for MacOS

Download VPN for Linux

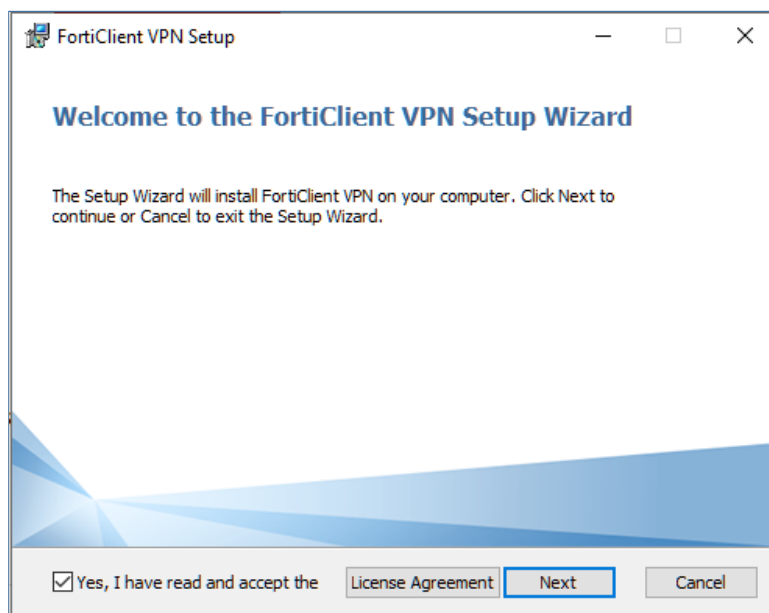

Download VPN for iOS

Download VPN for Android

Download VPN for Linux

The file FortiClientVPNOnlineInstaller-XXX will be downloaded. This may take several minutes according to your network connection. Click on the file to execute it.

### Windows

Click “Yes, I have read and accept the License Agreement” and then **Next**. In the following dialog window click **Next** again and then **Install** and **Finish**.

MAC OS, Android, etc.

Follow the installation instructions of your operating system, accepting the default options and granting permissions where necessary.

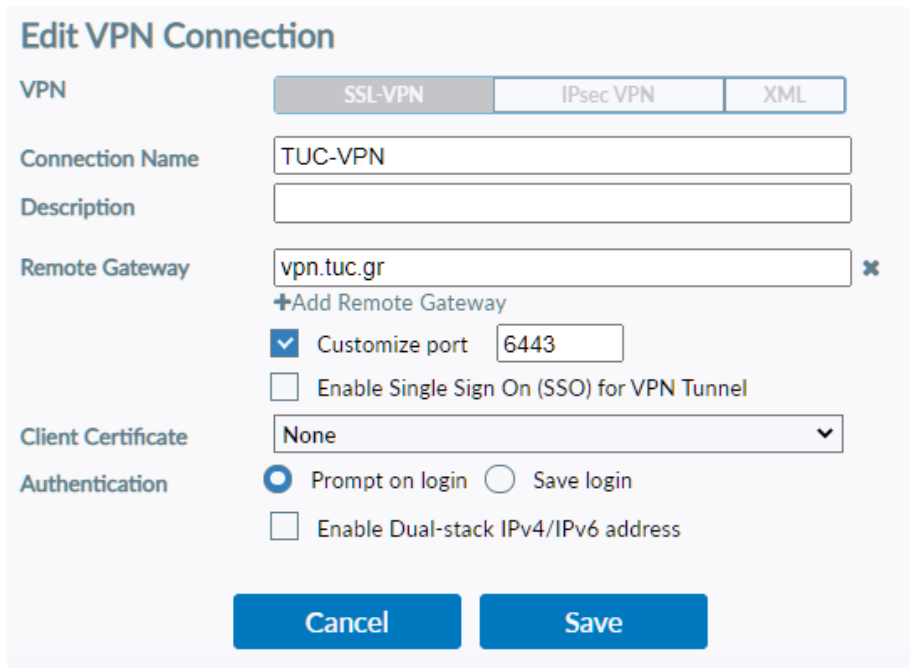

## Setup VPN Client
